Hi Leslie, here is the mining permit that Herriman City issued for the same piece of ground that we had a mining permit through DOGM. The contact person at Herriman is:

John Stillman

801-446-5323

The permit was issued to Brent Tanner (or the operator that he hired), and the mining was completed, but no reclamation was done. It was the exact site of where we had been, except that they were much more intrusive and destroyed anything we had there previously, and expanded the site significantly.

The name of our mine was "Donna Gibson", but she is not the land owner of this piece; Brent Tanner is the land owner of the "Donna Gibson" mine. I know it's confusing, but Donna Gibson's property was reclaimed 2 years ago, and we were allowed to move onto Brent Tanner's property, but the name of the mine stayed the same.

Thanks,

Jared

Re: File Number 43C08

Dear John Stillman:

The Herriman Planning Commission at their regular meeting on Septemebr 25, 2008, granted approval to your request for a sand & gravel operation on property located at 16596 S Camp Williams Rd. The approval was subject to the following conditions:

1. The operation shall not be located within 600 feet of a residence.
2. Hours of operation will be limited to 7AM to 7PM, unless an exception is granted by the City with an approved noise and lighting plan.
3. The use will be temporary and shall be reviewed every 6 months.
4. Submit a plan which shows the limits of disturbance for the entire property and the surface area for each phase that can be disturbed at one time.
5. The use shall be operated in a manner that eliminates unnecessary dust, noise, and odor (as illustrated by, but not limited to, covering trucks, hoppers, chutes, loading and unloading devices and mixing operations, and maintaining driveways and parking areas free of dust). This shall also include having a water truck permanently on site.
6. The site must be clear of all equipment, material and debris upon completion of the project.
7. All public improvements that are damaged during the operation of the temporary use must be repaired or replaced within 60 calendar days.
8. Only sand and/or rock mined on the premises may be processed in any crushing plant located on the lot or premises.
9. Obtain a state stormwater discharge permit.
10. Receive a grading/land disturbance permit from the City Engineering Department.
11. Must have traffic control and a roadway access plan approved by UDOT.

If you have any questions please contact the Planning Department during regular business hours.

Sincerely,

  
Glenn R Graham

City Planner
